

13 Sept. Thursday Demonstration 9-10:30 am Plein-air Painting Explained.

This demonstration is a short presentation to get to the nitty gritty of equipment needed and how much “stuff” to take. There will be a demonstration on using a viewfinder to get your ideal view onto that seemingly small bit of paper. If you’re new to Plein-air or just not sure of what to take, or do, this introduction session is for you. Karol will answer questions, alert you of what to be aware of and what not to forget. This is a solid grounding for would be Plein-air painters.

Skill level: beginners onwards
